

OAK CLASS

Summer Term 2017/18

Year 6 Production

Year 6 will be working towards their end of year production. The children will have an opportunity to act, sing, dance and have an involvement with all aspects of production. More news coming soon...

HISTORY

Year 6 will be sent back in time to key events in history. In these weeks we will look at a variety of areas in this period relating to History, Geography, Art, DT and PE. During the Friday of each week we will round off the period of time with something spectacular. On the 29th June, children will be encouraged to dress up in period costume from WWII as our fantastic finish.

The themed weeks have been organised as follows:

4th June – The Tudors

11th June – Victorians

18th June – The Great War

25th June – We'll Meet Again

This will be a really exciting month for Year 6 to explore and immerse themselves in these key historic times for our country.

SCIENCE

In science this term our topic is Energy and Sound. We will learn about kinetic, potential and sound energy through exciting experiments and deepen our understanding of how important they are in our everyday lives.

LITERACY & MATHS

Term 5

We will be revising the Year 6 curriculum in preparation for SATs in Maths, Reading comprehension and SPaG
