Subject: TW Half Marathan water station volunteers wanted.

Dear Parents/Guardians,

We have been approached by the Tunbridge Wells Half Marathon committee as they would like us to man one of the water stations this year. This is an event that we have supported in the past and it would be great if we could get a team together this year. I am sure that there may be some parents/siblings taking part in this race, and I can assure you that seeing a familiar face en route really does lift your spirits!

The half marathon is taking place on **Sunday 20th February** and we would be needed from 08:30 to set up our water table (Water Station 1, which is about 3 miles into the half marathon, TN3 0LW) until 10:00 at the latest. This will give you time to head to the finish line if you wish to cheer the runners in. We would need about 5 children and a few adults to support with this please.

If you are free to help support this, please could you email me via the school office **by Tuesday 25th January** to let me know how many children and adult helpers you have.

Many thanks for your support,

Mrs Parks
Running Lead
